(levonorgestrel-releasing intrauterine system) 52 mg

Skyla®

(levonorgestrel-releasing intrauterine system) 13.5 mg

THE BAYER IUD SUPPORT NETWORK

Medical Affairs representatives can provide clinical support and help answer your questions about Bayer IUDs.

Medical Affairs is comprised of technical and scientific experts that provide objective information about Bayer IUDs to healthcare providers and researchers in women's healthcare.

You can connect with Medical Affairs by calling 1-888-84-BAYER or visiting askmed.bayer.com.

Bayer Medical Affairs

Medical Affairs representatives are available to offer local scientific and technical support to health care providers to ensure the safe and effective use of Bayer IUDs including Mirena, Kyleena, and Skyla for appropriate patients.

Medical Affairs can also provide comprehensive clinical education and training on the proper placement of Bayer IUDs.

Bayer Medical Information

Bayer medical staff are dedicated to addressing questions about Bayer IUDs. Medical specialists can help answer your questions about Kyleena, Mirena, and Skyla.

To reach a member of Bayer's medical staff, call or visit the website.

SUPPORT AND TRAINING

To serve the healthcare community of current and potential providers who prescribe and place Kyleena®, Mirena®, and Skyla® IUDs, Bayer offers clinical information, hands-on training, and patient resources.

Training Models

Bayer provides multiple options for Bayer IUD placement.

Desktop Models

A range of models offering blind and guided placement training experiences.

Simulator

Virtual reality simulator with multiple patient cases for providers.

Reviews all steps for placement of Bayer IUDs along with exposure to equipment needed for proper IUD placement.

A digital version of the simulator is also available online <https://usa.bayer.virtamed.education/>

Bayer IUD Educational Kit

This kit provides the tools clinicians need to practice placement of a Bayer IUD, including printed materials for education and training.

Resident Programs

Elevate experience in resident IUD placement through our unique educational program, including interactive didactic presentations, hands-on training, and cutting-edge simulation technology for Kyleena, Mirena, and Skyla IUDs.

Educational Programs

Bayer supports clinicians through offering Educational Programs that encourage enhanced provider patient dialogue and support patient counseling.

Online Resources Links

Easily access efficacy and safety data, instructional videos, and additional patient counseling information by visiting our professional websites.
