

School-Based Health Care: Increasing Access to Health Services through Mobile Health Partnerships

Dannielle Dobbins, M.Ed.

Workshop Session #2: Sunday, Sept. 10, 2023

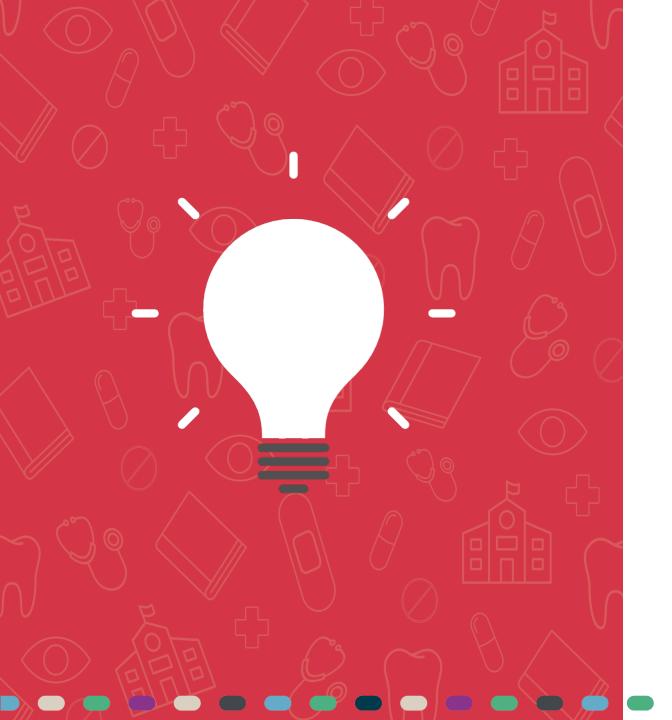

1. Identify the key components of the School-Based Mobile Health Care Toolkit.

2. Identify the key components of a high-quality, sustainable school-based health center and the corresponding opportunities and challenges of integrating mobile healthcare.

3. Identify best practices from existing school-based mobile healthcare entities, exploring challenges and opportunities related to agreements, data sharing, staffing models, and roles and expectations.

4. Develop up to three strategies to increase partnerships with schools and other health agencies.

School-Based Health Alliance Transforming Health Care for Students

Our Focus

The School-Based Health Alliance Works to Support & Grow SBHCs

Policy

Establishes and advocates for national policy priorities

Standards

Promotes
high-quality clinical
practices and
standards, including
for telehealth

Data

Supports data collection and reporting, evaluation, and research

Training

Provides training, technical assistance, and consultation

We support the improvement of students' health via school-based health care by supporting and creating community and school partnerships www.sbh4all.org

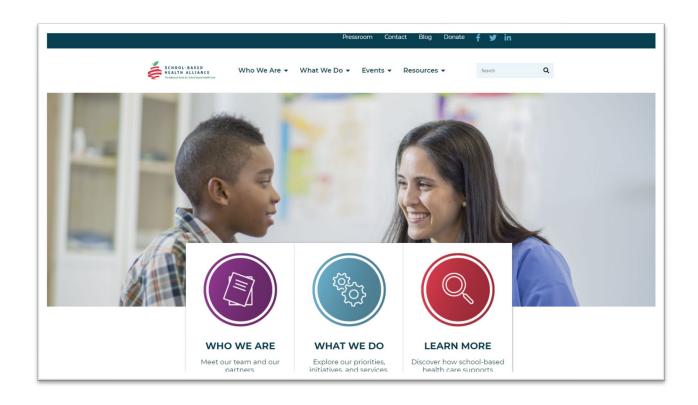

We Believe...

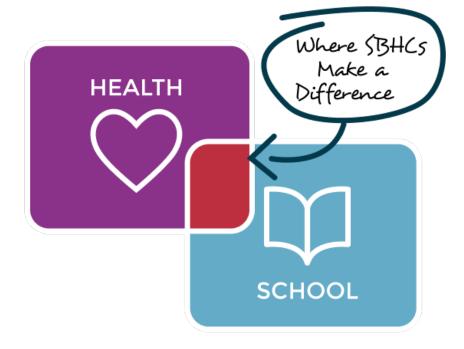

In the transformational power of the health and education intersection

School-Based Health Alliance

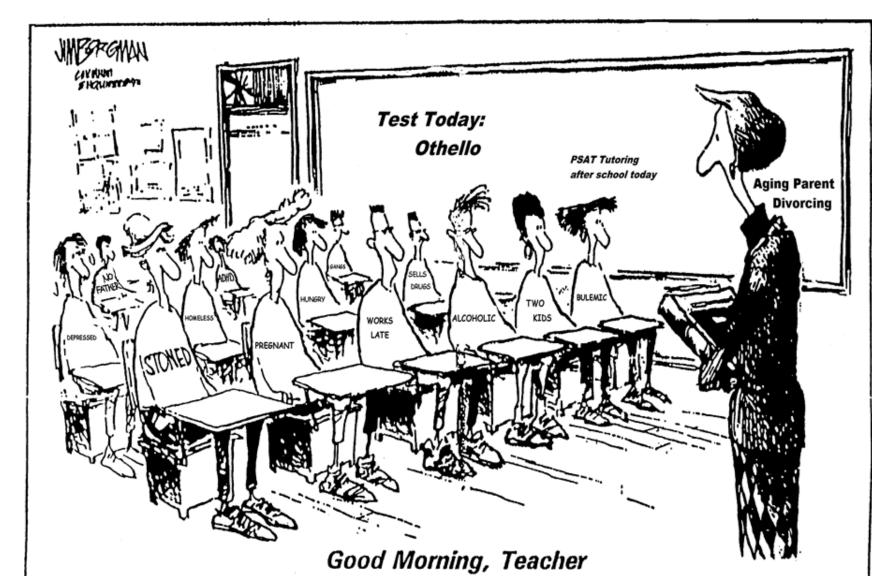

www.sbh4all.org

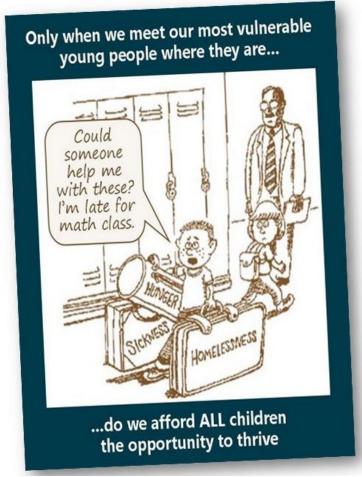

School-Based Health Center Defined

- Shared commitment between a school, community and health care organization(s)
- Support students' health, well-being and academic success by providing an array of services such as:
 - Primary Care
 - Mental Health
 - Oral Health Care
 - Vision Care
- Works with existing school services and care providers but <u>do not</u> replace

ACCESS

SBHC assures students' access to healthcare and support services to help them thrive.

STUDENT FOCUS

SBHC team and services are organized around student well-being and academic success.

HIGH-QUALITY CARE

SBHC delivers high-quality, comprehensive care to achieve optimal outcomes for students.

COLLABORATIVE SCHOOL PARTNERSHIPS

SBHC is typically governed and administered separately from the school, works collaboratively with the educational environment to support the school's mission of student success.

SCHOOL WELLNESS

SBHC engages with the school to participate, support, and improve a culture of health across the school community.

SYSTEMS COORDINATION

SBHC coordinates across relevant systems of care that share in the well-being of its patients.

Core Competencies

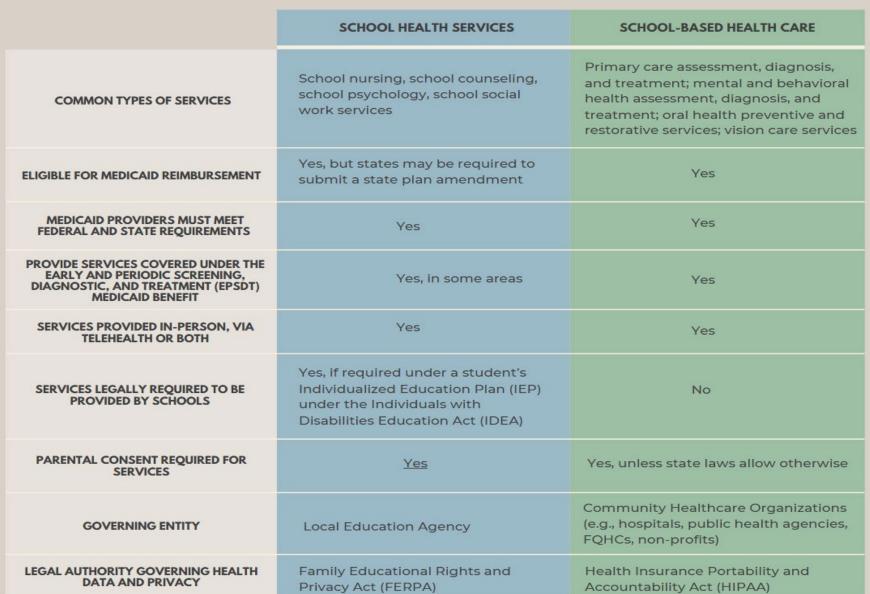

SUSTAINABILITY

SBHC employs sound business management practices to ensure that health services are sustained long-term.

SCHOOL·BASED

HEALTH ALLIANCE

What are School Health Services?

School health services include, but are not limited to

What is School-Based Health Care?

School-based health care is provided through school and community health organization partnerships, and in collaboration with school administration and health services staff.

This care includes but is not limited to

Primary care

School-based health centers (SBHCs) offer the most comprehensive type of school-based health care. The Center for Disease Control and Prevention's (CDC) Community Preventive Services Task Force <u>recommends SBHCs</u> as an evidence-based model that improves educational and health outcomes.

WHY SCHOOL-BASED HEALTH CARE?

How do Schools Support Student Health?

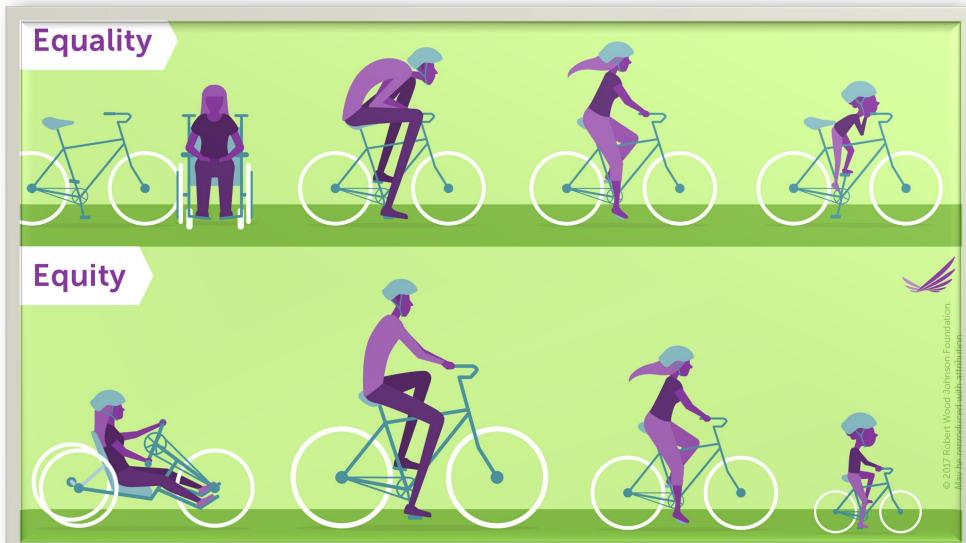

Powerful tools for achieving health equity among children and adolescents regardless of their race, ethnicity, or family income.

Create and uphold intersecting systems of care that support children in being healthy, feeling safe, and effectively engaging with school.

Schools can support student health through several models: school health services and school-based health care.

Help students and their families overcome access barriers

Fiscal Year 2022-2023 Appropriations

Fiscal Year 2022

Funded

- ✓ Congress appropriated \$30 million to SBHCs within the Section 330 Health Centers Program
- ✓ Zero dollars were ultimately appropriated to non-FQHC sponsored programs, although funding was included in both House and Senate bills

Fiscal Year 2022 Funding

Requests

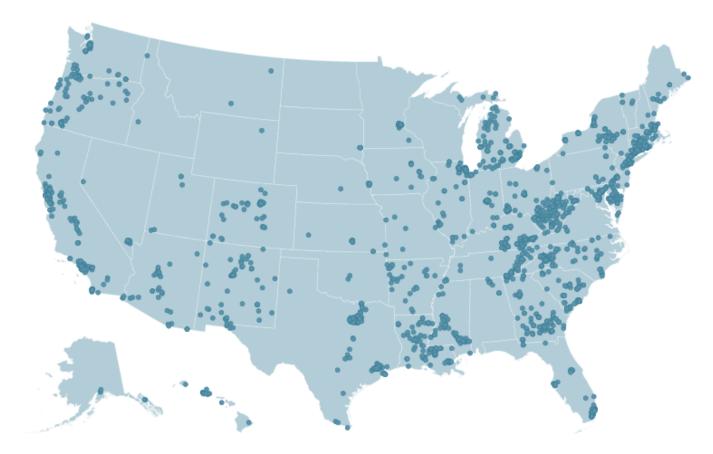

- Senate LHHS Appropriations Subcommittee:
 - \$55 Million for FQHC sponsored SBHCs
 - \$50 Million for all other SBHC sponsor types
- ➤ House LHHS Appropriations Subcommittee:
 - \$50 Million for each SBHC program

SBHC locations

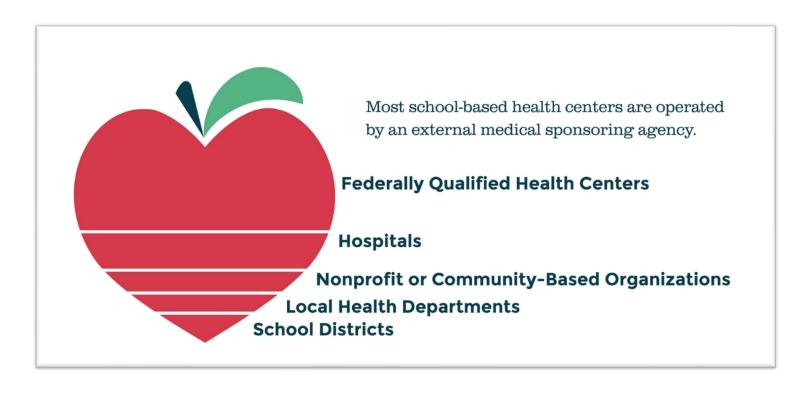

6.3 million* students in **10,629** schools have access to an SBHC

*Exact number is 6,344,907 students representing 13% of students and 10% of public schools nationwide.

National SBHC Census: What We Learn

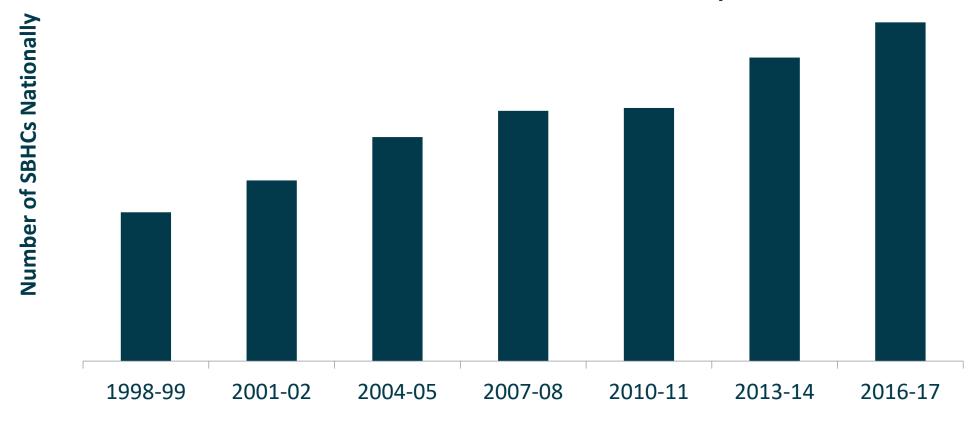

- Number of SBHCs
- Location
- SBHC Growth
- Delivery Models
- Provider Teams
- Sponsor Type

2016-17 National School-Based Health Care Census

Number of School-Based Health Centers, 1998-2017

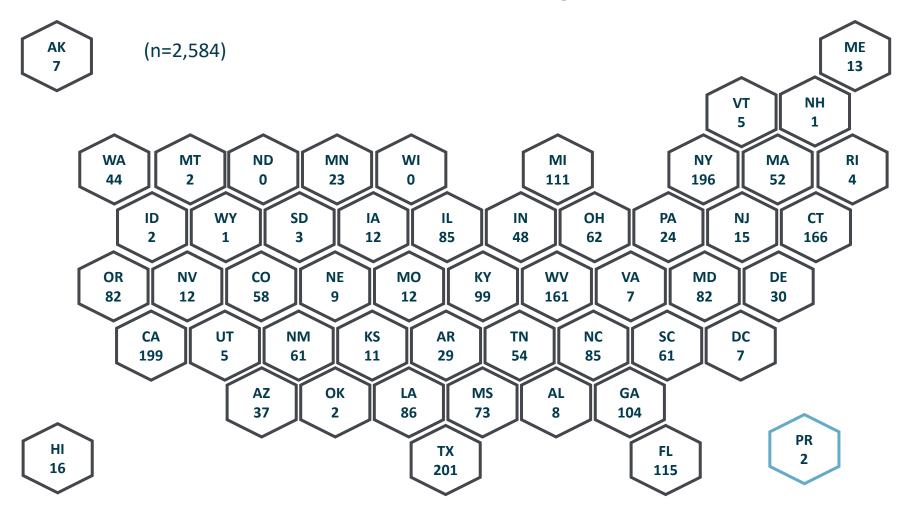

Note: From 1998-99 through 2013-14, behavioral health and oral health only programs were included in the overall count of SBHCs. For the 2016-17 Census, we elected to only include SBHCs with primary care and SBHCs that we confirmed are open.

Number of SBHCs by state

Note: For the 2016-17 Census, we include only those SBHCs that we confirmed are open and include primary care. These counts include all SBHC delivery models. Telehealth exclusive SBHCs were located in Georgia (73), Indiana (3), Maryland (6), Michigan (5), North Carolina (35), South Carolina (30), Tennessee (2), and Texas (113).

School-Based Mobile Health Care Landscape

Barriers

- Schools seeing the value of mobile health
- Low health literacy
- Language barriers
- Staffing
- Vehicle maintenance
- Access to electricity

Healthy Impacts

Health Supports Successful Students & Families

Better Access to Health Services

Healthier **Students** and **Families**

Healthy Students Learn Better

Gains in Student Academic Success

Helps to Build Trust

Families Connect With the School

Attendance Rate Increases

Lower Medicaid Costs

Reduced **Emergency** Room Usage

More Time at Work Increases Families' **Financial Security**

Consents

- Parents/guardians involvement is important and encouraged. They decide what services are or are not beneficial for their children, and their consent is required for care.
- Available services are NOT provided without permission except as allowed by state minor consent law.
- Confidentiality laws and requirements between patients and providers differ across states.

Scope of Services

• Services determined at the local level and in accordance with state and local policies and/or law

Existing Services

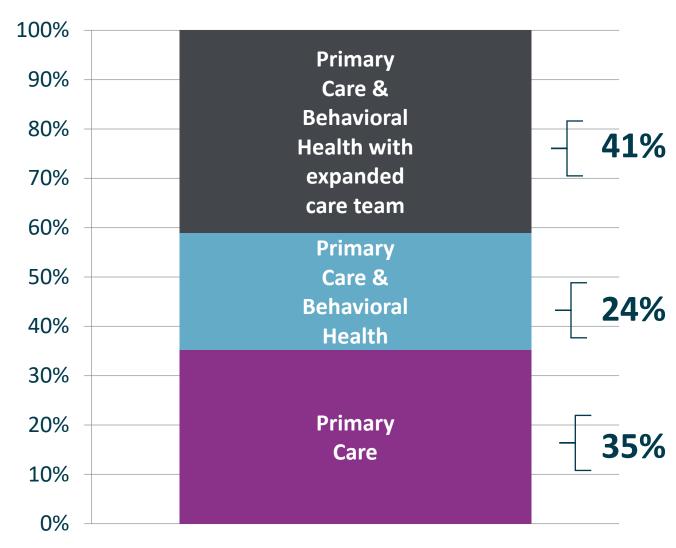

- Does NOT replace required school health services for FAPE but instead supports and enhances
- Does NOT replace parents/guardians, school nurses, school counselors, pediatricians, or other existing services.

SBHC Provider Teams

ACCESS

SBHC assures students' access to healthcare and support services to help them thrive.

STUDENT FOCUS

SBHC team and services are organized around student well-being and academic success.

HIGH-QUALITY CARE

SBHC delivers high-quality, comprehensive care to achieve optimal outcomes for students.

COLLABORATIVE SCHOOL PARTNERSHIPS

SBHC is typically governed and administered separately from the school, works collaboratively with the educational environment to support the school's mission of student success.

SCHOOL WELLNESS

SBHC engages with the school to participate, support, and improve a culture of health across the school community.

SYSTEMS COORDINATION

SBHC coordinates across relevant systems of care that share in the well-being of its patients.

Core Competencies

SUSTAINABILITY

SBHC employs sound business management practices to ensure that health services are sustained long-term.
